07/2019 - 04/2021

PROJECTS

Fruit and Vegetable Ecommerce Website

- Simple and user-friendly interface Fresh fruits and vegetables listed with prices Add to cart and checkout options Order confirmation and delivery details Responsive design for mobile and desktop

Hospital mangement System

- Developed a healthcare web app using React for doctor-patient appointment booking. Created responsive UI with dynamic forms and real-time data handling. Integrated REST APIs for user data, scheduling, and medical history. Implemented state management and secure user authentication.

Recipe Finder Website

- A simple and smart recipe finder website that allows users to search for dishes based on ingredients, cuisine, or cooking time. It provides step-by-step instructions, images, and nutritional details to help users cook delicious meals easily.

Responsive Movie Website

- Displays Movies Dynamically – Uses JavaScript to fetch and show movie data from an external API. Interactive UI – Allows users to view movie titles, posters, and ratings in real-time. Responsive Design – Styled with CSS for a clean, user-friendly layout across devices.
